RIVER FRONT COAL MEN TAKE ENCOURAGING VIEW

Believe That Coal Strike Will Soon Be Settled and Old Prices

Re-established.

It is cheering to hear certain coal dealers with headquarters on the river front talk concerning the great strike of miners, and the possible effect it will have on consumers here. At the yards of Stephenson Brothers, there is a confident feeling that the controversy between operators and their employes is nearing an end, and that within the next two months cost will be on hand in plentiful supply. This, in the face of the gloomy outlook that has confronted consumers, is encouraging. However, it is said that not a nound of Pennsylvania coal has been received by this firm in four months, and others have shared

There is a limited supply of coal in the bins of some retailers, which is being sold in small quantities, ranging in price from \$7 to \$10 per ton. One dealer yesterday prophesied that normal prices will be re-established within a short time.

Keep Your Insides Cool!

Here's a man who thinks he has heart disease, and is scared half to death. His face is all drawn out of shape from fear and agony. Every time he eats, his heart "palpitates"-that simply means that his stomach is swelled up with gases from fermenting undigested food, and his heart thumps against his diaphragm. Nothing the matter with his heart. In the summer time, this gas distention is much worse, his whole body and blood get over-heated, and his heart and lungs get so crowded for room, that he gasps for breath. There he is, look at him! Every minute he expects to drop dead. As a matter of fact, all he needs is to stop that souring and gas forming in his stomach and bowels, help his digestion along, and keep cool inside. You

all know that whenever something rots or decays, heat develops. Same in the body. Keep cool inside! Take a candy cathartic CASCARET every night at bed-time. It will work while you sleep, clean up and cool your insides, give you a regular, comfortable movement in the morning, and you'll be feeling fine all day every day. Heart Disease! Fudge!
